## Installing the service pack for LiveCycle Designer ES

Perform the following procedure to install the LiveCycle ES service pack for Designer ES.

► **To install the service pack for LiveCycle Designer ES:**

1. Run `Designer81_English_SP2_2_Update.exe`. This step opens a wizard that guides you through the installation.
2. On the Welcome screen, click **Update**.
3. On the InstallShield Wizard Completed screen and click **Finish** to exit the wizard.
4. Start LiveCycle Designer ES, select **Help > About**, and then verify that Version 8.1.1.3137.1.470467.0 displays. This version confirms the service pack update.

## Installing the service pack for LiveCycle Workbench ES

There are two methods used to incorporate LiveCycle Workbench ES functionality into your LiveCycle ES environment:

- With Eclipse 3.2.1 as part of an integrated development environment
- As a plug-in to an existing Eclipse 3.2.1 environment

**Note:** LiveCycle ES 8.0.1 Service Pack 3 provides updates for Workbench ES as the integrated development environment only. You do not need to update your Workbench ES plug-in.

► **To install the service pack for LiveCycle Workbench ES:**

1. Ensure that LiveCycle Workbench ES is not running.
2. Install the service pack for LiveCycle Workbench ES by running `adobe_livecycle_workbench_8_0_patch.exe`. This step opens a wizard that guides you through the installation.
3. On the Welcome screen, click **Next**.
4. On the Patch Installation Location screen, verify that the default location displayed is correct for your existing installation, or click **Browse** to select the alternate folder where LiveCycle Workbench ES is currently installed, and then click **Next**.
5. On the Service Pack Summary screen, review the information and, if it is correct, click **Next**. (Click **Back** to correct any errors that occurred.)
6. On the Service Pack Summary (continued) screen, review the information and, if it is correct, click **Install**. (Click **Back** to correct any errors that occurred].
7. On the Service Pack Installation Completion screen, click **Next** to apply the updates.
8. When the Service Pack Installation Completion screen refreshes to indicate a successful installation, click **Finish** to exit the wizard.
9. Start LiveCycle Workbench ES, select **Help > About**, and then verify that Version 8.0.1.3 displays on the splash screen. Version 8.0.1.3 confirms the service pack update.
